\*P3a. Description: (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries.)

*This property is one of the Tamarisk Ranchos cluster of 16 single-family residences, designed by the in-house architects for developer Lou Halper's Devon Construction Company in 1958. Although each one-story house is free-standing, they share a cooperatively-owned central park and swimming pool area towards which all of the residence's rear elevations face. The cluster is located one block east of the Tamarisk Country Club golf course. Entertainment industry agent Jules Goldstone was the original owner of this property. The Goldstone Residence has an almost flat roof covering 2,554 interior square feet with three bedrooms and 2.5 bathrooms. Although not indicated in the building permits, the house was expanded from the original approximately 1,900 square feet to its present size. Exteriors are sheathed in medium-smooth stucco and natural rock. Windows are a mixture of plate glass and casement. Sliding glass doors open to the rear patio and entrance area. The meticulously maintained park-like grounds include vast lawns, trimmed hedges, and a grove of mature date palms. The house is in good condition. The property would contribute to a potential historic district that could be designated under an existing or proposed local ordinance (a "5D1" National Register Status Code).*
